Managing eBook Metadata in Academic Libraries Jul 03 2021 *Managing eBook Metadata in Academic Libraries: Taming the Tiger* tackles the topic of ebooks in academic libraries, a trend that has been welcomed by students, faculty, researchers, and library staff. However, at the same time, the reality of acquiring ebooks, making them discoverable, and managing them presents library staff with many new challenges. Traditional methods of cataloging and managing library resources are no longer relevant where the purchasing of ebooks in packages and demand driven acquisitions are the predominant models for acquiring new content. Most academic libraries have a complex metadata

dood.bar

environment wherein multiple systems draw upon the same metadata for different purposes. This complexity makes the need for standards-based interoperable metadata more important than ever. In addition to complexity, the nature of the metadata environment itself typically varies slightly from library to library making it difficult to recommend a single set of practices and procedures which would be relevant to, and effective in, all academic libraries. Considering all of these factors together, it is not surprising when academic libraries find it difficult to create and manage the metadata for their ebook collections. This book is written as a guide for metadata librarians, other technical services librarians, and ancillary library staff who manage ebook collections to help them understand the requirements for ebook metadata in their specific library context, to create a vision for ebook metadata management, and to develop a plan which addresses the relevant issues in metadata management at all stages of the lifecycle of ebooks in academic libraries from selection, to deselection or preservation. Explores the reasons behind creating records for our resources and challenges libraries to think about what that means for their context Discusses the complex nature of academic libraries and the electronic resources they require Encourages librarians to find their own way to manage metadata

Technology-enhanced Learning in the Early Years Foundation Stage Feb 27 2021 Discussing learning technologies in relation to young children often provokes a wide range of passionate responses, from sceptics to enthusiasts. This text explores the issues in a holistic, pedagogical and research-informed way. It helps professionals unpick the complex issues involved, understand the scope of available technology, examine the interplay between learning and specific technologies, and more broadly create a vision for a technology-enabled learning environment that is child-centred, playful, creative and interactive. Recurring case studies are analysed from a number of theoretical

dood.bar

perspectives, and the approach deliberately goes beyond the scope of 'understanding of the world' to consider the contribution of technology-enhanced learning to a range of different contexts and subject areas. Throughout there are clear links to professional standards, the Early Years Foundation Stage and the characteristics of effective learning.

Mobile Technology for Children Aug 16 2022 Children are one of the largest new user groups of mobile technology -- from phones to micro-laptops to electronic toys. Marketing Communications Apr 12 2022 Marketing communication is a dynamic industry, which continues to change and adapt to new technologies, media consumption patterns and communication interfaces between marketers and their target markets. At the same time, the fundamental communication processes and well-established theories and models are very much applicable in this dynamic environment. This revised second edition blends the well-established with the new and emerging aspects of marketing communications. Marketing Communications applies a uniquely practical approach to the topic, providing a structured overview of planning, development, implementation and evaluation of marketing communications, alongside detailed case studies that demonstrate how the theory translates to practice. Fully updated, the new edition considers important developments in the global marketplace. It includes new content on emerging digital media platforms, changing media consumption patterns and consumers' strategies to cope with information overload. It also reflects upon consumer scepticism, a growing phenomenon that communication specialists need to overcome when designing and implementing effective campaigns. This new edition also considers the importance of marketing communications tools in not-for-profit sectors, such as social marketing and political marketing, as well as the cross-cultural aspect of

marketing communications. This textbook is essential reading for both students and professionals in marketing, communications and public relations. Online resources include an extensive instructors' guide, which provides answer checklists to all Think boxes, Ethical issues and end-of-chapter cases within the book. The text is also supported by PowerPoint slides and test banks for all chapters and major cases.

Cat Kid Comic Club: On Purpose: A Graphic Novel (Cat Kid Comic Club #3): From the Creator of Dog Man Jul 15 2022 The Cat Kid Comic Club is deep in discovery in the newest graphic novel in the hilarious and heartwarming worldwide bestselling series by Dav Pilkey, the author and illustrator of Dog Man. The comic club is going in all different directions! Naomi, Melvin, and siblings are each trying to find their purpose. Naomi has an idea to get rich quick that causes a lot of commotion and emotion. And when faced with rejections, the friends try and try again to stay true to their vision. To top it off, a surprise visitor comes to class to stir things up. Will a desire for money and power cloud Naomi's purpose? Is it quitting time? Will the club ever be the same? The hilarity is nonstop as the baby frogs navigate sibling relationships, follow their path, and create art -- with purpose! Featured as stories-within-the-story, the mini comics showcase each baby frog's perspective and individual art style. In this groundbreaking graphic novel series, award-winning author and illustrator Dav Pilkey uses a variety of techniques -- including acrylic paints, colored pencils, photography, collage, gouache, watercolors, and much more -- to illustrate each frog's creative purpose and encourage teamwork. The kaleidoscope of art styles, paired with Pilkey's trademark storytelling and humor, fosters creativity, collaboration, independence, and empathy. Randall Greenwald takes the question and answer format that it follows and, in short chapters, encourages us to dig for the gold that is to be found in its pages. Read, and be enriched.

Digital Technologies and Learning in Physical Education Mar 11 2022 There is evidence of considerable growth in the availability and use of digital technologies in physical education. Yet, we have scant knowledge about how technologies are being used by teachers, and whether or how these technologies are optimising student learning. This book makes a novel contribution by focusing on the ways in which teachers and teacher educators are attempting to use digital technologies in PE. The book has been created using the innovative 'pedagogical cases' framework. Each case centres on a narrative, written by a PE practitioner, explaining how and why technology is used in their practice to advance and accelerate learning. Each practitioner narrative is then

analysed by a team of experts from different disciplines. The aim is to offer a multi-dimensional understanding of the possibilities and challenges of supporting young people's learning with digital technologies. Each case concludes with a practitioner reflection to illustrate the links between theory, research and practice. *Digital Technologies and Learning in Physical Education* encourages critical reflection on the use of technologies in PE. It is an essential resource for students on physical education, kinesiology or sport science courses, practitioners working in PE or youth sport, and researchers interested in digital technologies and education.

[Papertoy Monsters](#) Jun 21 2020 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), *Papertoy Monsters* offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.
